

Leading Change: Advanced Practice in Analysing and Improving Learning and Teaching

Institute of Leadership and Management Endorsed Award

Great teachers make the difference!

A great teacher creates stimulating, relevant educational experiences that engage learners and foster deep learning.

This endorsed, practical and personal development programme is based on an action research model. It is designed to build confidence, competence and credibility in advanced practitioners to lead quality improvement of learning and teaching within their organisation.

Overview of ILM Endorsed Award

- 2 workshop days
- Online support throughout period of programme
- Action Research (8-10 weeks)
- Assessment for the ILM Endorsed Award is a 15 minute presentation of the outcomes of research including evidence and justifications of the conclusions

Programme Aims

- To critically reflect on current research and development based on effective learning and teaching
- To apply the research to practice
- To refine and adapt own teaching practice accordingly
- To evaluate the impact on and implications for learning, teaching and the whole organisation

Additional Information

Jill Brown is passionate about learning and teaching. She is an experienced teacher, researcher and teacher trainer. Jill works across the UK, Ireland and Europe delivering training and managing research and development projects. She specialises in quality improvement and curriculum development.

Who should attend?

- Qualified teachers
- Advanced practitioners
- Aspiring advanced practitioners
- Heads of Departments
- Teaching and learning champions
- Practitioners supporting the early professional development of newly qualified teachers

Testimonial

"This is a really worthwhile course for anyone who likes to be reflective about their own teaching practice and seeks to continually raise standards. Jill is a warm and very professional trainer who really gets the best out of delegates."

Jan Harker, Assistant Principal
The Sixth Form College, Colchester
